

UNCLASSIFIED

RELEASED IN FULL

DART - KIGALI

SITREP, OCTOBER 5 - 6, 1994

Facts AF/C
RQ8A

ADMIN ISSUES

-- Bravo on the T-shirts!!! We see you have already solicited orders from Washington. Good - former DART members should also have a first crack at ordering theirs.

-- There are growing traffic hazards in Kigali due to dead dogs on the roads!!

-- Regarding Barry: could Nairobi help with following. Barry will arrive Nairobi and then proceed to Kampala to meet with the research stations regarding the "Seeds of Hope" project funded by PMP. We will need USAID/Kampala to assist in his mission, hopefully in conjunction with the Ag office there which initially made contacts with the stations (and I think has ongoing relationships with them). We then propose that on the 23rd the mission provide OVDA car and a driver to bring Barry to Kigali - we will release the driver and he can return to Kampala (DART fund cite can cover his expenses). Action request: cable to Kampala requesting country clearance and this program. Thanks

-- Lloyd Feinberg will travel to Ngara - DART/Kigali has sent country clearance cable for him.

-- Whereabouts of Xerox machine still of concern but we are relieved to hear you may have tracked it down in Kampala. Potentially it could be shipped with Barry??

DART WHEREABOUTS

October 5: Buddy and Melanie on day trip to northeast with FAO vets. Kate and Kim in Kigali.

October 6: Everyone in Kigali!

FUTURE DART TRAVEL

October 7-8: Kate to Gikongoro with WFP to meet visiting WFP/FFP team.

October 8 - 13: Kim and Melanie to the western portion of the country to assess the acceptance and activity of the RPA, to review the displaced camps and to look at the seed distribution/planting progress in the west. Trip will commence in Gisenyi on Saturday continuing on Monday to Kibuye and Tuesday to Cyangugu, returning to Kigali on Wednesday.

October 11 - 25: Buddy to Butumbura to cover DART post.
